80-38, 80-39, 80-40, and 80-41 respectively

III. Implementation of Changes in General Educational Requirements.

Dr. Bartling moved and Dr. Meiss seconded the following motion to clarify CAA's position regarding satisfying the Health Education requirement:

The Graduation Requirement in Health Education may be met in one of three ways: 1) by successful completion of Health Education 1200; 2) by successful completion of a proficiency examination for Health Education 1200 (which would carry two hours of credit toward graduation); or (3) by successful completion of a competency examination in Health Education (which would carry no credit).

Voting on the motion resulted in it passing unanimously.

IV. Dr. Pringle's address (Agenda Item 80-35)

Dr. Pringle addressed the council regarding Annual Academic Program Review and the BOG degree program. He discussed the three major forms of program review -- 1) the statewide review of programs by the BHE staff; 2) the Individual Institutional Program Review; and, 3) the Annual Program Review. He also answered questions regarding these issues and provided the council (see close of minutes) with a list of the programs he recommended for the category STATUS QUO\* (which indicates that because of several factors such as enrollment, costs, etc., the program needed continued development before being considered STATUS QUO -- without such development within a reasonable period of time, the program would probably be suspended) for the academic year 1980-81.

The meeting adjourned at 3:45 P.M.

Ronald T. Wohlstein  
Secretary pro tem
